Using This Directory

The intent of this Directory is to provide an ever-expanding, current and comprehensive listing of accommodations suitable for those with chemical sensitivities, either while travelling or for permanent or emergency housing. The Directory includes apartments, houses, B&Bs, inns, motels and hotels. We intend to include temporary/crisis housing, hostels and campground information as we gain more information on those.

It is our hope that this compilation will be of value to you in your search for a safe place to stay in either crisis situations or on pleasure trips. However, please remember that what works for another, may not work for you. Call ahead and confirm specifics. Also, please be aware that we are often relying on third-party information in the descriptions offered. While every effort has been made to ensure that the information contained herein is correct, we cannot be held responsible for any errors or omissions or for any legal or other liabilities arising out of your use of this information.

If you know of any MCS-EI-friendly accommodations, please send the information so it can be included to benefit others in need to:

MCS-CanadianSources-owner@yahogroups.com

Please check back often as it will be continually updated. The most current version of the Directory be found at:

<http://www.mcscanadian.org/acc.html>

The Directory was originally compiled by Françoise Gourd, and is maintained by Françoise and LaVerne, co-owner of MCS-CanadianSources, as a service to the MCS community. If you would like to distribute the Directory free of charge to others, please see our Distribution Information section for further information on doing so in either electronic or print format.

Custom Designed Emergency Housing

Teardrop Trailers - make your own

Details: What's a Teardrop Trailer? Teardrop trailers are camping trailers that were popular from the '30s to the '50s. They typically sleep two inside, and have a galley under a rear hatch. From there, the possibilities are endless. They can be made from aluminum and safe-for-you materials and costs minimized. The links below are provided only as a general guide to the type of trailer and ideas for plans. We have no experience with either the plans or the companies. As well, a search on your favourite search engine will probably turn up many more designs, as well as some free plans.

<http://www.kuffelcreek.com/teardrops.htm>

<http://www.teardrops.net/plans01.html>

Tad Taylor Healthy Trailers (Wardsboro, Vermont)

494 Cobb Reed Road, 05355

Tel: 802) 896-6891

Email: healthy@together.net

Website: <http://www.healthy-homes.com/>

Details: We are sad to report that Tad Taylor has passed away. This contact information is here because it is as yet unclear whether Tad's business will be continued.

Tad's business was centred around the decontamination and renovation of tourist or travel trailers (e.g.: "Airstream" trailers). He will be sorely missed.

Canada

CP Hotels

Details: As part of their renowned Green Program, CP Hotels use combinations of baking soda, borax (with caution - do not breathe the powder), and vinegar for much of their cleaning needs. Tougher, although still less-toxic, products are saved for the tougher jobs.

Eco-Heal Home (Courtenay, British Columbia)

Tel: (250) 384-8892

Email: ecokate@pacificcoast.net

Website: www.cbrproducts.com/feature.html

Details: Note: Rentals are by the month.

Guests of the Eco-Heal Home include individuals seeking refuge from renovations or pesticide usage. Strict rules apply while staying at the retreat. Smoking is not allowed, and visitors are expected not to bring perfumed products such as lotions, sprays, laundry detergents, deodorisers, incense, or other potentially toxic products like cleaning agents and pesticides. The Retreat supplies safe alternatives; as well, it is heated with electric baseboard. Double-pane windows; unscented laundry machines; glass doors in shower. Although its environment is hazardous-chemical free, the Eco-Heal Home is far from rustic; it boasts amenities such as three computer workstation areas with high-speed Internet access. Back-to-basics practices combined with a few high-tech trimmings yield a nicely balanced environment.

Bold Point Farmstay B&B (Quadra Island, British Columbia)

Tel: 250-285-2272

Website: www.farmstay-ca.com

Details: 10 acre organic farm B&B where guests participate in the Organic Farming - Learn by Doing Program. Meals made of food grown and raised organically on the farm and nearby. Many guests return annually for harvest times. Cleaning products: only vinegar, baking soda, no commercial cleaners used. No pesticides/herbicides used. No clothes dryer - linens line-dried in fresh air.

The Morning Glory (Vancouver, British Columbia)

Heart-to-Heart Enterprises: c/o 415 East 6th Avenue, V5T 1K5

Tel: (604) 862 1058

Details: Bed and Breakfast for People with Chronic Illness or Disabilities. Low-cost accommodation provided in a very clean, warm and friendly setting in central Vancouver (close to major bus routes and hospitals). Large, private and beautifully decorated bedroom with a brand new double bed, 100% cotton sheets and towels. Every guest receives a complimentary gift of natural products shampoo and soap. The very clean bathroom has a full bathtub and shower. As always, call ahead to make sure that your specific needs can be met.

Vancouver Fairmont (Vancouver, British Columbia)

Tel: (800) 441-1414 or (604) 207-5200

Website: <http://www.fairmont.com>

Details: Has an entire floor of hypoallergenic guest rooms. All 42 rooms on the hotel's 11th floor have been converted to hypoallergenic, or low allergen content. The project goes beyond the replacement of feather pillows and duvets to include water and air-filtration systems, as well as a central vacuum to reduce dust. One guest room will be outfitted with hardwood flooring for allergy sufferers sensitive to carpeting. There is no additional charge for the rooms and they can be requested upon booking.

The Chanterelle Country Inn (Cape Breton Island, Nova Scotia)

Tel: Toll free: 866 277 0577. Local: (902) 929-2263

Email: info@chanterelleinn.com

Website: <http://www.chanterelleinn.com>

Details: Provides a "Green Environment", designed for the highly discerning or chemically sensitive traveller. See website for more details.

English Garden Bed & Breakfast (Dartmouth, Nova Scotia)

Tel: (902) 434-2650. Toll free: (866) 282-8906

Website: <http://www.bbcanada.com/englishgarden>

Details: Special rates for patients of the Nova Scotia Environmental Health Centre. Located 10 minutes from the Nova Scotia Environmental Health Centre and 20 minutes from the Airport. Endorsed by the Nova Scotia Environmental Health Centre. Features which make it a safe, comfortable place for those with EI include: Smoke-free, scent-free and fragrance-free accommodations; no pets permitted; large pleasantly decorated rooms with many amenities including ensuite bathrooms; hardwood floors throughout; scent and fragrance-free liquid soaps and shampoos available in every room; 100% cotton towels and linens washed with fragrance-free detergent; rooms and bathrooms cleaned with fragrance-free cleaners; air-exchanger and air-conditioning to provide a constant flow of clean fresh air; hot water baseboard heating; located on the edge of Dartmouth, away from congested areas with high traffic; every attempt will be made to accommodate special dietary needs. Please advise at time of reservation.

Fields of Potential Wholistic Centre and Turrent House Bed and Breakfast (Consecon, ON)

20809 Loyalist Parkway, K0K 1T0

Tel: 613-394-4222

Email: fieldsofpotential@sympatico.ca

Website: <http://www.turrethouse.ca/>

Details: Located in Prince Edward County, near the shore of Lake Ontario. No smoking, no pets allowed. Hardwood floors in two of the bedrooms, and in most of the house. Unscented Norwex cleaning products and Nature Clean soap and other natural cleaning products used. Cotton sheets and bedding. Mattresses have springs and are sprayed with Norwex mattress spray. Organic food available. Some pot-pourri and flowers and plants in rooms, but can be removed upon request. Bedroom windows can open. They face a busy road, but the breeze usually comes from the opposite direction, from the lake and across farmer's fields. No pesticides used in the house or the yard. No fireplaces inside the house. Open firepit in yard. House is approximately 130 years old. No air conditioning. In summer, open windows and portable fans cool the house. Low levels of electromagnetic fields. Wood panelling in bedroom is solid wood. Host is willing to go to some effort to accommodate those with multiple chemical sensitivities.

Cree Village EcoLodge (Moose Factory, ON)

Tel: 1-888-Creeway (toll-free)

Website: http://www.ainc-inac.gc.ca/nr/nwltr/bae/ju022_e.html

Details: Surrounded by the Canadian sub-Arctic, in a community steeped in Aboriginal culture, the Cree Village EcoLodge offers visitors a unique escape.

Located at Moose Factory, Ont., an island community between the shores of

Moose River. The EcoLodge's design and furnishings reflect traditional Cree values.

Chairs, couches, tables - even the window blinds - are made of natural woods. Carpeting and blankets are 100 percent organic wool, while wall

treatments, mattresses, pillows, and linens are 100 percent organic cotton.

Organic vegetable-based soaps, shampoos and conditioners are found in every room. Four of the rooms feature composting toilets which use no water,

produce no odours and require no chemical treatments. Even the paint, sparingly used, is a special low-gas emission formula. Guests with allergies

and chemical sensitivities will love this place.

The Rosemount B&B (Kingston, Ontario)

Tel: (613) 531-8844/1-888-871-8844

Email: rosemnt@kingston.net

Website: www.rosemountinn.com

Details: Holly will remove all scented products, etc. Some people who stayed there found the air quality quite good. As always, it is best to test the place for oneself first.

Barrhaven Non-Profit Housing Inc. (Nepean, Ontario)

Steepleview Crossing, 3001 Jockvale Road, K2J 4E4

Tel: (613) 823 6230

Website: <http://www.irtech.com/buc/housing.htm>

Details: The Barrhaven Non Profit Housing Co op owns and operates a private non-profit housing project on land adjacent to, and leased from the Barrhaven United Church, operating at "arms length" from the church. The residential housing project includes 41 units, a number of which include features designed for tenants with physical challenges. A unique aspect of the project is a building with seven units custom-designed, with specialised expertise provided by CMHC, for persons suffering from environmental hypersensitivities (ES). Long waiting list. Advantages: The environmentally-safe building was built and finished with environmentally-safe materials. Disadvantages: Non-sustaining walls as well as some ceilings are basswood, which off gases terpenes (the wood is not well sealed); some people cannot tolerate it. Most tenants in other buildings use fabric softener in their dryer, which can be felt and smelt in the air on the property. Many neighbours use pesticides on their lawns from May to Sept. The Co-op is surrounded by farms using pesticides from the beginning of May (mostly) to Sept. inclusively. In conclusion: While not perfect, this environmentally-designed building can offer a safe haven.

Conservation Co-operative Homes Inc. (Ottawa, Ontario)

140 Mann Avenue

Tel: (613) 567-7281

Details: Rental housing co-op, environmentally-friendly (was first occupied in 1995, so there wouldn't be any off-gassing anymore. Some of the tenants have environmental sensitivities. Management and tenants use environmentally-friendly products. HRV system in building. Low VOC paint and products used when renovating units). Individuals must check the building and the units to see if suitable.

Caution: Smoking is allowed within individual units and this may make the entire building unsuitable for a person with MCS to enter depending on individual sensitivities. Also, though the building is environmentally-friendly, the cleaning products are citrus-based; they probably have a scent. Suggestion: Wear a protective mask that one can tolerate in the common areas until inside one's own unit.

The Monterey Inn Resort and Conference Center (Ottawa, Ontario)

2259 Prince of Wales Drive, K2E 6Z8

Tel: 1-800-565-1311; (613) 288-3500

Email: jkelly@montereyinn.com

Website: <http://www.montereyinn.com>

Details: 88 rooms, 4 floors. Nestled along a five acre site along the spectacularly treed banks of the Rideau River, the Monterey Inn is your oasis in the city. While the Inn is a member of the Green Hotels Association, its website does not specify if it has environmentally-safe rooms. Contact the Inn ahead of time to make sure that your specific needs can be met.

Hilltop Pastures (Stirling, Ontario)

1341 Sills Road, RR#2, K0K 3E0

Tel: (613) 478-6078

Email: info@hilltoppastures.com

Details: OCPP approved (organic) Bed and Breakfast. Property is three acres and is being developed as a self-sufficient holding. Chickens supply fresh eggs and manure for the organic garden. Two cats and two dogs. Owner uses Ivory Soap, Simply Clean and Nature Clean products (though always double-check in case the info has changed). There is also occasional use of dryer fabric sheets during wet weather, but otherwise, clothing is line dried. CLR occasionally used. Wood stove on premises. Cash is accepted. English, French, Italian and Swahili languages spoken.

Caution: Website has some animated graphics, so if easily affected by same, be cautious.

Days Inn (Toronto, Ontario)

30 Carlton St., M5B 2G3

Tel: 416-977-6655

Website: <http://www.dayshoteltoronto.ca>

Details: Recommended by Environmental Health Clinic - special discount may apply for patients. Windows open, non-smoking floor.

Caution: As of May 2005, the website mentions being "newly renovated" so be sure to double-check that as it doesn't specify if the entire hotel was renovated or a few rooms only.

Delta Chelsea (Toronto, Ontario)

33 Gerrard Street West, M5G 1Z4

Tel: (416) 595-1975. Reservations.: 1-800-CHELSEA

Website: www.deltahotels.com

Details: This hotel has 10 rooms specially furnished for the environmentally sensitive. Non-smoking rooms; windows open. The rooms have an air filter, water purifier, cotton blankets, dust-mite proof mattress and mattress pads and special sheets that are washed separately. Water-based paint. Cleaning

products used are environmentally approved. Bathroom amenities are non-allergic. The rooms have synthetic carpeting, however, one person reports the staff was exceptionally accommodating and covered the carpeting with sheets, amongst other accommodations made.

Primrose Hotel (Best Western) (Toronto, Ontario)

111 Carlton Street

Tel: 416-977-8000 Reservations: 1-800-268-8082

Website: <http://www.torontoprimrosehotel.com/>

Details: Recommended by Environmental Health Clinic - special discount may apply for patients.

Non-smoking floor, cotton blankets, bio-degradable non-aerosol cleaning products on request, windows do not open.

Caution: As of May 2005, the website mentions being “newly renovated” so be sure to double-check that as it doesn’t specify if the entire hotel was renovated or a few rooms only.

The Courtyard by Marriott (Toronto, Ontario)

475 Yonge Street

Tel: 416 924 0611

Details: Recommended Environmental Health Clinic - special discount may apply for patients. Non-

smoking floor, windows open, water based paints, cotton blankets, will use special cleaners and provide non-allergenic pillows on request. Renovated 1999. Also, 12 Modified Rooms available for either hearing impaired or wheelchair accessible. Rates: range from \$189.00 – \$269.00 (Canadian).

Bed of Roses by the Sea (Charlottetown, PE)

Tel: (902) 367 0009; Toll-free Tel.: 1 888 306 0009

Email: info@bedofrosesbythesea.com

Website: www.bedofrosesbythesea.com

Details: Situated directly on Charlottetown's waterfront (Northriver estuary) in a quiet cul-de-sac, this 3-unit B&B (rated 4 star by Canada Select) endeavours to offer a haven of peace, beauty, and health in every respect. Smoke- and pesticide-free environment since 1994. Gourmet breakfasts with many choices, carefully prepared with organic, locally grown ingredients wherever possible, provide a wholesome diet, while special needs are catered for on request. Cleaning is almost exclusively done with vinegar, baking soda and other gentle, non-toxic products, and with central vacuum cleaning system. For laundering, mild, scent-free, environment-friendly detergents are used (except for a trace of fabric-softener in drying the cotton towels). All rooms (carpeted or with wooden floors) have openable windows, air conditioning, and hot-water base-board heating. Electro-magnetic pollution is limited by providing PlugLink as a hi-tech alternative to wireless Internet. No pets. Yoga classes (in small groups and individual), jade thermal massage (Migun bed), some holistic therapies, and Wellness retreats offered (please see website and/or call for details). Bed of Roses will make every effort to accommodate special needs of guests with environmental sensitivities; please advise at time of reservation.

Cottage for rent on PEI (Rocky Point, Prince Edward Island)

Tel: (902) 422 2353

Website: <http://mcsCanadian.org/peicottage.html>

Details: Located 25 minutes from Charlottetown, this cottage is on 2/3's of an acre at Rocky Point which is 25 minutes from Charlottetown, PEI. The area is extremely quiet and safe with no incidents in 20 years. Good friendly neighbours, very few biting bugs, always a fresh breeze off the water! It is NOT near to any potato fields or spraying. Located down a tree lined lane from the highway and is one cottage back from the water. Please see website for further details and photos.

L'achillée Millefeuille (La Conception, Quebec)

4352, chemin des Tulipes, J0T 1M0

Tel: (819) 686 9187

Email: achillee@millefeuille.ca

Website: <http://www.millefeuille.ca/en/index.html>

Details: Organic B&B in the Laurentians; not specifically geared towards people with environmental allergies. As with all accommodations, would have to be tested. (Note: If asked, the owner might be willing to remove all scents, etc.? Worth asking.)

Residence Marie-de-la-Ferre (Montréal, Quebec)

225 Pine Avenue West, H2W 1R5

Tel: (514) 844 1022

Email: info@hospitalierest-joseph.com

Website: <http://www.hospitalierest-joseph.com/>

Details: Residence owned and managed by nuns and open specifically to persons who are sick and need medical testing and to persons accompanying a sick one. Other people will not be accepted. Reservations are made by telephone only. Tel.: (514) 844 1022. Single rooms: 25\$/night, breakfast included (eggs, toasts, muffins, cereals, milk, coffee, tea). No cooking facilities except a microwave in the kitchenette. Space to eat in the kitchenette; small refrigerator available for guests. For more info, visit the Residence Website. Not much perfume worn in the place but no scent-free policy. Cleaning products are regular industrial products, and cleaning is done daily. Suggestions: Bring your own towels and bedding, including mattress protector; put all residence towels, soap and bedding, including mattress protector, bedspread, pillows and book regarding the Residence (on the desk), in garbage bags, which are then sealed and put in the closet. Replace with your own bedding, towels, soap, etc. Air the room. Ahead of time, cook and freeze enough meat for the duration of your stay as well as for the travel there and back. Bring enough cleaned vegetables and other desired foods, or buy these in Montréal (grocery store on St. Laurent Street, to the right of Pine Avenue, and health food store on the same street, to the left of Pine Ave.). Keep meat frozen during the trip. Store everything in the fridge at the residence. Once at the residence, ask that the cleaning staff not clean your room during your stay, to avoid being exposed to chemical cleaning products. Of course, if you are there for one night only and out the next morning, this does not apply.

US

The Natural B&B (Tucson, Arizona)

Tel: Tollfree: (888) 295-8500 Mobile: (520-870-8970)

Email: marc@tucsonnatural.com

Website: <http://www.tucsonnatural.com/>

Details: Proprietor Marc Haberman states: "both the residence and the grounds are maintained without chemicals or pesticides. We provide air purifiers, humidifiers, and relaxing music. No street shoes are worn inside, we welcome non-smokers only, and pets are not allowed. Children over 6 years old are welcome … We are environmentally friendly to the degree that we use no chemicals or pesticides and work toward creating a healthy environment. We do have carpets that are well maintained without chemical cleaners and a gas stove. We can accommodate some people with Environmental Illness or Multiple Chemical Sensitivities. It is the responsibility of each person with environmental health problems when making a reservation to be sure that it is suitable for them before finalizing a reservation."

Neon Rose (Point Reyes Station, California)

P.O. Box 632, 94956

Tel: (800)358-8346

Email: info@neonrose.com

Website: <http://www.neonrose.com/>

Info re Rooms:

<http://www.pridejoyresort.com/info.html> Separate central AC, Telephone and TV in each apartment. Queen-size organic cotton bed with cotton bedding and full-size futon in each apartment. 100% ceramic tile flooring, furniture constructed of either metal, glass or non-treated wood. Austin air filters and filtered tap water. Laundry facilities available. Glass-bottled water for sale. Property renovated using safe building materials, furniture and bedding. Only non-toxic and non-fuming cleaners are used. Everyday household chemicals, such as hairspray, perfume, scented products and pesticides are banned from the premises. The entire resort is a non-smoking area. Prime ocean-front location. Fully-furnished one-bedroom apartments, complete with living room and kitchen, are available by the week, month, or long-term.

Best Western Space Shuttle Inn (Titusville, Florida)

3455 Cheney Highway, 32780

Tel: 1-800-523-7654 Local: (321) 269-9100

Email: rooms@spaceshuttleinn.com

Website: <http://www.spaceshuttleinn.com>

Details: The Inn has allergen-controlled rooms: Non-smoking "Evergreen" rooms are available for those with asthma or sensitivity to Florida's high amount of airborne pollen; additional air filtration units remove dust and pollen from the air; filtered water is available at the sink and in the shower. (Smoking is allowed in other rooms.)

Hilton O'Hare (Chicago, Illinois)

Details: Pilot Project of Environmentally Friendly Room Design for Guests with Allergy Related Sensitivities. Please see this article for further information:

http://www.hotel-online.com/News/PR2005_2nd/Apr05_EnviroRoom.html

Chez Sven (Wellfleet, MA)

Website: <http://www.chezsven.com/>

Details: Committed to eco-tourism, this B&B provides a natural, chemical-free environment geared toward those with environmental sensitivities. Allergy-free suites feature 100 percent organic cotton bed linens and hypo-allergenic comforters and pillows for those allergic to down. Non-toxic green detergents are used in a front-loading energy-efficient washer and whenever possible sheets are line dried. Hepa filters in vacuums help to maintain air quality. The inn is totally smoke- and pet-free. Organic raspberries, tomatoes and potatoes, plus homemade organic yogurt are guest favorites for breakfast.

Sirius Community (Shutesbury, Massachusetts)

72 Baker Road, 01072

Tel: (413)259-1251

Website: <http://www.siriuscommunity.org/>

Details: This is an intentional community and is not specifically for those with MCS. Organic meals, private or shared rooms and tenting available, possibility of work exchange program. Further details:

<http://www.people.umass.edu/bricew/rates.htm>

<http://www.siriuswellnessretreat.org/activities.html>

<http://www.siriuswellnessretreat.org/beinghere.html>

Crow Wing Crest Lodge (Akeley, Minnesota)

11th Crow Wing Lake, 31159 County Road 23, 56433

White Pines Victorian Lodge (Sturgeon Bay, WI)

Website: <http://www.whitepineslodge.com/>

Details: Members of Green Hotels Association and Sustainable Travel International, every aspect of this inn is dedicated to care of the earth's environment. Not only are no chemical cleaners used, but in an attempt to provide a hospitable environment for those with multiple chemical sensitivities, guests are asked to sign an agreement not to wear any chemical products, perfumes, colognes or hairsprays at the inn. All natural cotton and wool fabrics are found in rooms, and more than two million gallons of water and subsequent energy have been conserved by guests re-using towels and sheets throughout their stays, and installation of low-flow showerheads and toilets. Located in a beautiful wooded setting, guests can walk to many nearby restaurants and waterfront attractions.

Arbor House, An Environmental Inn (Madison, Wisconsin)

3402 Monroe Street, 53711

Tel: (608)238-2981

Website: <http://www.arbor-house.com>

Details: 8 rooms, 2 floors. Use of non-toxic products and recycled materials; organic or natural unbleached cotton linens and fabrics; use of non-toxic and biodegradable cleaners; organic mattresses; EMF circuit design reducing exposure to electromagnetic fields; landscaping using native plants, while avoiding the use of pesticides; energy efficient appliances, lighting and technology; sustainably harvested woods; water efficient appliances and fixtures; environmental resource center. "As nontoxic as my own bedroom," wrote one traveler.

Asthma Friendly Hotels

Website: <http://www.asthmafriendly.com/hotels/index.html>

Details: (Note: As of Feb/2005, there are no hotels listed, but please be sure to check as they will be added as they become available.) Asthma friendly rooms are furnished using low and non-allergenic furniture, bedding, flooring, paints and fabrics. High performance filters are installed to continuously maintain low concentrations of pollutants and allergens in room air, shower water and tap water. Hotel staff are trained to clean and maintain the asthma friendly® room in accordance with the requirements of the certification standard. To be certified, each room must have the following: hardwood or tiled floors

that are washable surfaces. Bedding: Hypo-allergenic pillows, non-allergenic sheets and pillow covers, allergy protection encasings for mattress and pillows. Furnishings: Materials to be selected that reduce the incidence of dust mites and pollen and are low on irritants. No cushions. Bed linen, blankets, bedspread and curtains are made of fully washable materials, which do not require chemical dry cleaning. Leather should be used to upholster the chairs. All paints and varnishes to be used must be VOC (Volatile Organic Compound) free or low VOC. Cleaning materials chosen for their suitability. Rugs: Washable. Non-allergenic soaps and shampoos will be utilised in bathrooms.

BBCanada (Bed and Breakfast) (Canada)

Website: http://www.bbcanada.com/bb_canada_map.cfm

Details: This B&B Directory doesn't specifically cater to those with MCS, but because each B&B typically offers a number of pictures of the interior of the house and the grounds, this can give a very good idea of furnishings, flooring, etc.

EcoProperty (Australia & NZ)

Website: <http://www.eco.com.au/>

Details: "We help people to buy, sell, design and build properties and products that allow us to live in a more sustainable way. Our aim is to recognise and promote the value and benefits brought by eco-responsible property ownership and development."

EcoProperty Canada

Website: <http://www.planetfriendly.net/property/>

Details: EcoProperty.ca is for people who care about nature, environment and sustainability. Whether your interest is public or private... preserving the wilderness or living sustainably on the land... EcoProperty can help you connect with others who share your interests. Unique listings of ecological and organic land, projects and proposals – for sale, for rent, to share, projects, land trusts, ecovillages, proposals and opportunities. Urban or rural, public or private.

EverGreen Rooms by Hartford, Inc.

Website: <http://www.evergreenrooms.com/>

Details: "Evergreen Rooms" are rooms in various hotels which have room-style air filtration units (charcoal and hepa) and water filtration available. Be sure to confirm the room you book is an "Evergreen Room" and that it does have these items available, as well as any other concerns you might need addressed.

List of participating hotels:

<http://www.evergreenrooms.com/script/hotel.cgi>

Info re filtration devices used: <http://www.evergreenrooms.com/main.html>

If the "list of hotels" page above doesn't work, you can visit an older version of the participating hotels list at: <http://tinyurl.com/ayv42>

Glidehouse by Michelle Kaufmann Designs

Website: <http://www.livemodern.com/glidehouse/>

Details: 3d Tour: <http://www.glidehouse.com/>

[**Note from the editors:** One thing to consider with this sort of housing is that because the units need to be transported/shipped, for those attempting to build an air-tight structure, the movement the units would experience in transport might affect "air-tightness". Special arrangements might need to be made to compensate for this. Nonetheless, this could be a viable option for some.] From the website: The Glidehouse is built in a factory, using the most modern and environmentally-friendly building methods and materials. It can be built in as little as four to six months, at a cost comparable to or below traditional site-built homes ... The Glidehouse™ modular home is designed to collaborate with nature. The design is based on basic sustainable—green—design principles. The house is designed as a series of shallow buildings to allow maximum natural ventilation. Through the use of the gliding glass wall and the opposite

operable clerestory windows above the storage bar, breezes are maximized. Indirect lighting minimizes the need for electric lighting. Depending on the location, the house can either have solar panels, a geothermal, or a wind generator system, or a hybrid system. The exterior walls are made of maintenance-free Cor-Ten steel, Galvalume, Hardi panels or cedar planks to blend in with the context.

Green Homes for Sale

Website: <http://www.greenhomesforsale.com/>

Details: Who will benefit from GreenHomesForSale.com? We are people who are variously concerned about or sensitive to our environment. Some of us have degrees of chemical or other sensitivities to environmental elements and building materials that require high level clean and non toxic living and working spaces and others of us want to live in ecologically friendly homes.

Green Hotels Association

Website: www.greenhotels.com

Details: "Green" hotels are properties whose managers are eager to institute programs that save water, save energy and reduce solid waste – while saving money – to help protect Earth! The purpose of the Green Hotels Association is to bring together hotels interested in environmental issues. From adding "Drinking water served on request only" to the menu to installing new HVAC systems, and with every measure in between, the Green Hotels Association encourages, promotes and supports the "greening" of the lodging industry. The list of member hotels covers the U.S., Canada, the Carribean, Africa and Europe. **Note:** Please be aware that some hotels specify only that they are environmentally-friendly which may not translate to being suitable for someone with chemical sensitivities. As always, be certain to check ahead of time to see if your specific needs can be met.

To find member hotels: www.greenhotels.com/members.htm

Hospitality Plus: HEAL's Travel Guide (US)

Website: <http://members.aol.com/HEALNatnl/index.html>

Details: Travel tips, questions to consider, listings of private homes and commercial establishments that may be suitable for people with allergies, asthma, sensitivities. Members: \$12.00; others \$24.00

Intentional Communities Directory

Website: <http://directory.ic.org/>

Details: This is a world-wide directory of intentional communities. Some of them may be suitable for those with MCS. There are two MCS-specific communities listed. There are many more communities to be found that might be suitable if the search term "environmental illness" is used.

Mcssafeshelterusa Email Group (US)

Details: Environmental Health Network's email group on Yahoo for MCS long-term and short-term housing.

To join: email mcssafeshelterusa-subscribe@yahoogroups.com

Website: <http://health.groups.yahoo.com/group/mcssafeshelterusa/>

Short-term and long-term housing for people with MCS. Check the database for listings by state. Find rentals, hotels, and housing to purchase. If you have an MCS-safe home you wish to share with EIs in crisis, please add your listing to Short-term Shelter. EIs don't necessarily need a separate bedroom; a patio or living room space can be very welcome in an emergency. It would be great if this turned into an underground railroad for EIs. Please help make this a reality.

Organic Places to Stay

Website: <http://www.organicholidays.com/>

Details: Accommodation on organic farms and organic small holdings (includes self-catering and catered). International. As always, owners of these places must be contacted to check if the places are

compatible with your needs.

Scent-Free Facilities - Worldwide

Website: <http://www.mcscanadian.org/scentfree.html>

Details: This is a listing of facilities and organizations that have policies or wordage related to limiting the use of scented products and was compiled by Ruth Shannon. It is provided here as a resource in hopes that those travelling might be able to find shops, restaurants and other places to visit that are scent-free.

Caution: Be sure to verify the accuracy of the information and note that as with all listings, individual places may have changed their policies.

The Safer Travel Directory: Nancy Westrom

Tel: 954-518-0190

Email: cparkh1001@aol.com

Website: www.safertraveldirectory.com

Details: The Safer Travel Directory is a guide for people with environmental illness or multiple chemical sensitivities who either need a less toxic place to live or who would like to travel without fear of being exposed to toxic chemicals. It lists hotels, bed & breakfasts, retreats, inns, rooms for rent, houses for sale, and even some campgrounds. Costs for a copy of the Safer Travel Directory: \$17 US/Canada, \$23 International, includes postage.

Green Vacation Hub, AB)

Website: www.GreenVacationHub.com

Details: Folks who would like information about environmentally friendly places to stay when travelling might want to take a peek at

www.GreenVacationHub.com. It's an extremely informative site with resources about green and environmentally safe travel resources around the world. When considering a specific place to stay, you can check out their green profile to see how they do re scent free stuff, etc.

A growing number of children and adults have asthma, allergies and chemical sensitivities (or MCS). We at the Hub know that this can pose additional challenges to traveling, so we have set up the site to make it easy to narrow down to vacation accommodations that meet your specific needs.

<http://www.greenvacationhub.com/environmental.php>

Chemically Sensitive Vacation Co-op (CSVC) (Harrison, Arkansas)

6625 Orchard Pt. Rd., 72601

Tel: (870) 743-2885

Email: rldjad@alltel.net

Website: <http://www.ChemicallySensitiveVacationCo-op.com>

Details: Vacation co-op/Home exchange. Vacations for the Chemically Sensitive. If you have been unable to vacation due to the harsh chemicals used to clean lodging establishments or because of strong fragrances used by them or their guests, CSVC was designed with you in mind. Trade a bedroom and bath in your home for a bedroom and bath in another's home; or trade your home for another's home for a 5-7 (or longer) day vacation. Rather than fighting all the chemicals used in most lodging establishments, be matched with another person (and home) with similar chemical sensitivities. Pay only our annual membership fee of \$95.00. All members (guests and hosts) must be willing to adapt to each other's sensitivities. Website owners are very involved in the matching process. **OTHER OPTIONS:** If home exchange is not for you: Cabin rentals for the chemically sensitive. For more details, please consult Website.

Green, Natural and Healthy Homes for Sale (US, Canada and Australia) (Santa Barbara, California)

P.O. Box 30085, 93130

Tel: (805) 898-0079

Website: <http://healthyhomesforsale.com/>

Details: Covers the US, Canada and Australia. Healthy & Natural Homes For Sale provides a 24/7/365 venue for marketing your healthy and or natural home, to buy and sell homes that have been built or remodeled with health and the environment in mind. List your green, natural or healthy home on this Website. With this, people with chemical and/or environmental sensitivities can find safe places to live.

Excalibur Steel Structures (Chattanooga, Tennessee)

8-A Francis Street, 37419

Tel: 423-825-0022

Email: Info@excalibursteel.com

Website: <http://www.excalibursteel.com/index.htm>

Details: Plans: http://www.excalibursteel.com/prices_stdplans.htm

Distribution:

As it is our goal to ensure this Directory is made freely and widely available to those in need, permission is hereby granted to print and distribute up to 10 copies provided it is unmodified, unaltered and is not used commercially. This Directory may also be stored and/or distributed electronically via email to individuals and/or to email groups where it is appropriate to do so. To ensure that the most current version is always available, please do not put it on your own website, but rather link to it at the MCS-CanadianSources site at:

<http://www.mcscanadian.org/acc.html>

All other rights reserved.

If you know of any MCS-EI-friendly accommodations, please send the information in an email to: MCS-CanadianSources-owner@yahoo.com so it can be included to benefit others in need.
